Re: Motormen and conductors who worked on the Eastern Ave. and South Amboy cars the night of Sept. 14, 1922.

Operative interviewed George Bailey who lives in Georges Road and at present is operating a Highland Park bus. He stated that on the night of Sept. 14th, 1922 he worked on the Eastern Ave. line and finished work at 5:30 P.M. that evening. He did not see any of the Hall or Mills families and in fact would not know them if they were on his car. Mr. Bailey is sure he was working during the day time and has always worked during the day.

HENRY DUPRAS, 64 Torrette St., New Brunswick, who stated that on the day of Sept. 14th, 1922 he was working the day shift. He does not know Jim Mills or Harry Mills and did not know Mrs. Mills.

JOHN MALIK, 104 Van Liew Ave., Milltown, who stated that he worked during the day time Sept. 14th, 1922 and did not see any of the Mills family. He worked on the Eastern Ave. cars and never knew any of the Mills or Hall families.

Respectfully submitted:
